

THE BREAD AND BUTTER

**YOU ASK FOR IT,
WE DEVELOP IT.**

MAGNUM[®]

Our MAGNUM series is the first solid plastic thread protector to meet impact requirements of oil companies, steel mills, API and IADC/SPE. Its extremely rugged design provides outstanding thread protection for your tubular goods. The MAGNUM is the preferred choice of protectors in the field.

RECOMMENDED USAGE

When absolute total protection is required.
All grades of pipe, especially Alloy Grade.
Superb thread impact protection and sealing abilities.
Long-term storage and handling.

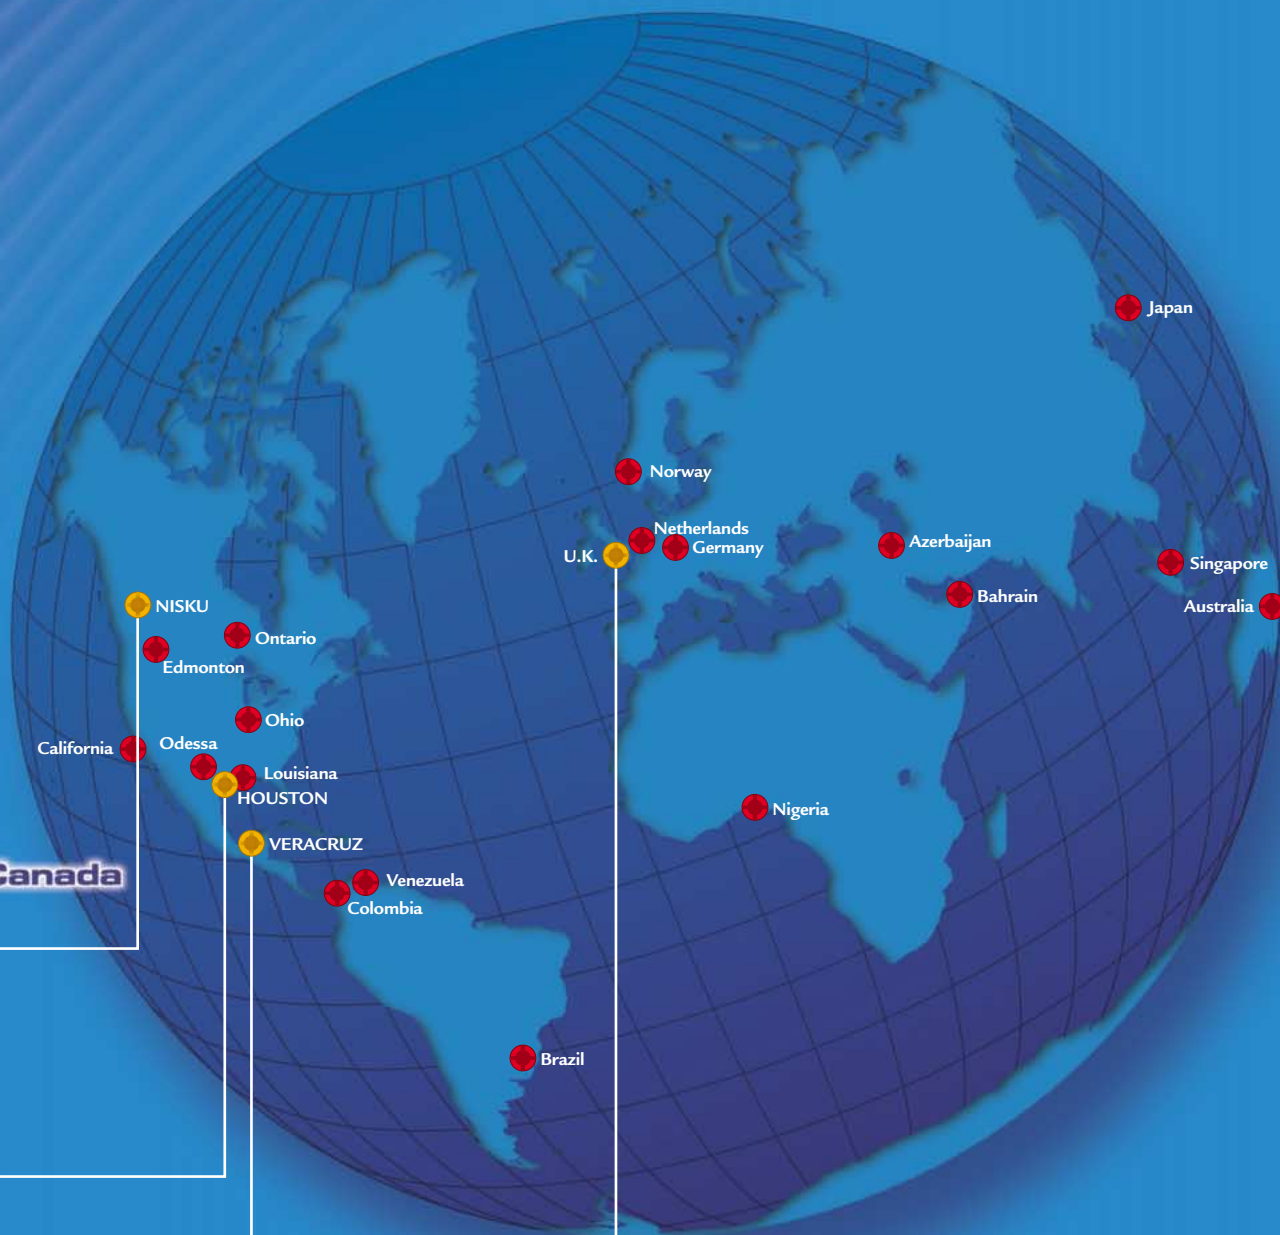

APPLICATIONS

Tubing: 2-3/8" through 4-1/2" NUE and EUE.
Casing: 4-1/2" through 13-3/8". All API thread types.

PRODUCT BENEFITS

- Significant savings compared to composite designs.
- Lighter weight reduces installation fatigue and freight expense.
- Eliminates metal sleeves, which during cold conditions can separate from plastic.
- Eliminates removal problems associated with unthreading a damaged metal sleeve.
- Eliminates the negative impression of used pipe so often associated with rusted metal sleeves.
- MAGNUM's bright orange color provides increased visibility for employee safety.
- Casing sizes available in Recessed Liftable design.
- Designed to protect L4 thread length.
- 100% Recyclable.
