

THE BFTO™ PROTECTOR

**YOU ASK FOR IT,
WE DEVELOP IT.**

ULTRA.®

RECOMMENDED USAGE

When absolute total protection is required.
Premium thread applications.
Superb thread impact protection and sealing abilities.
If precision CNC cut or machined threads are required.

APPLICATIONS

Tubing: 2-3/8" through 4-1/2" OD.
Casing: 4-1/2" through 11-7/8".

PRODUCT BENEFITS

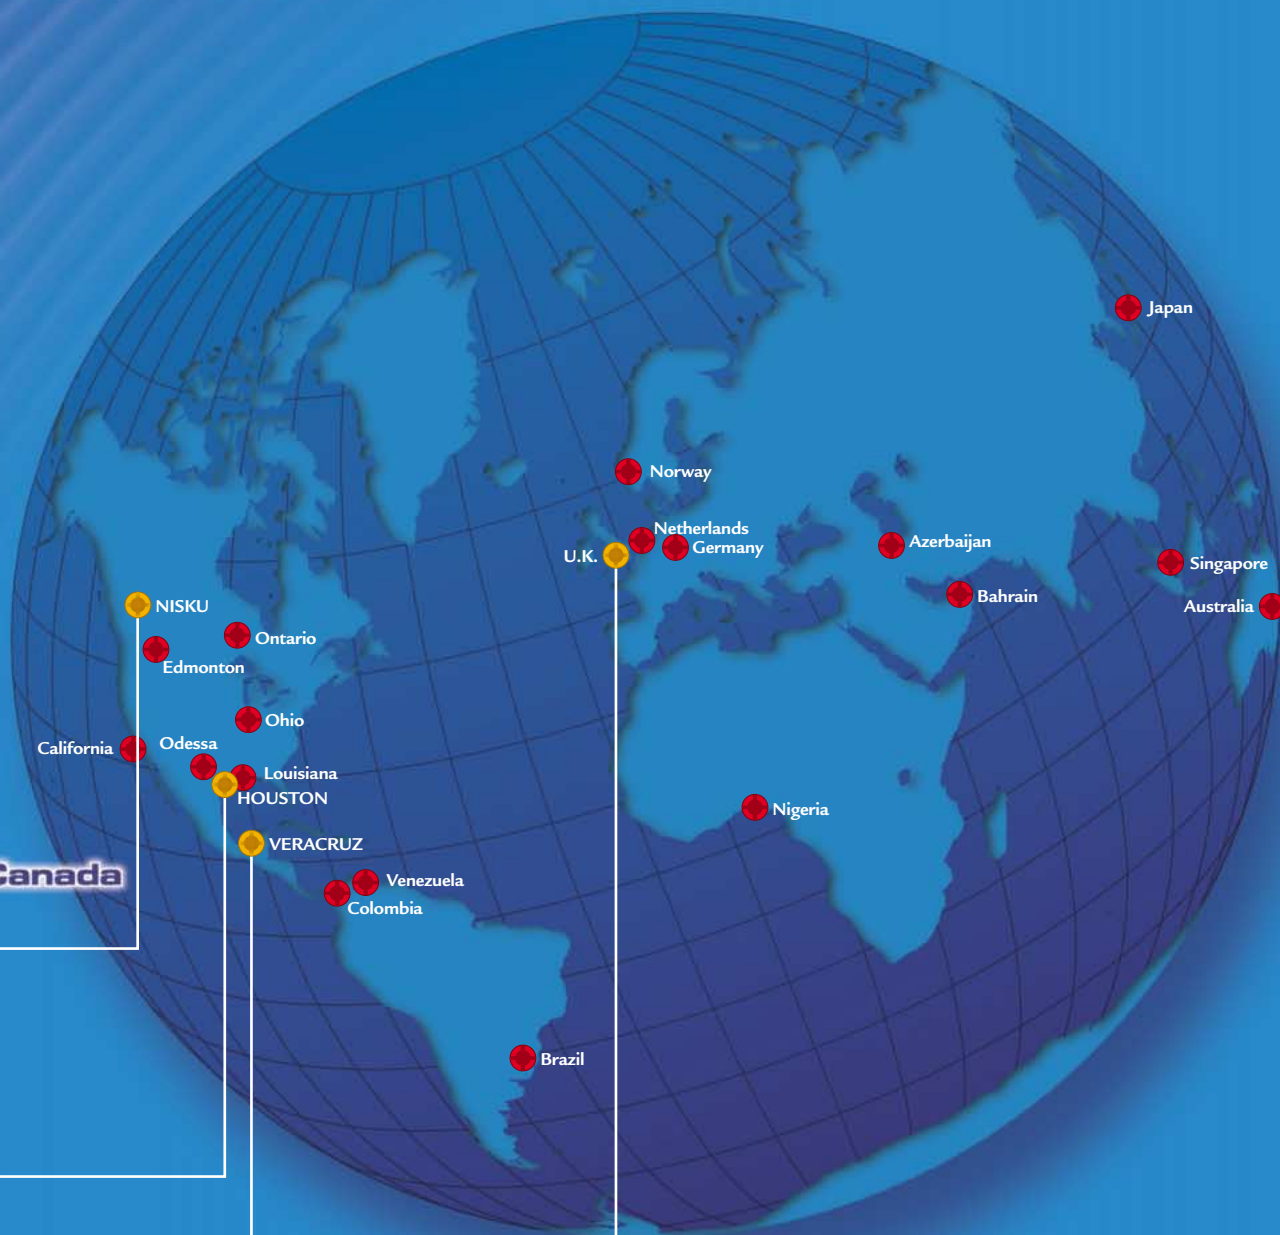

- The first all-plastic composite protector – lighter weight, lower transport costs.
- Completely recyclable – no plastic/metal separation required, no disposal to landfill.
- CNC cut threads for exacting fit.
- Hot-stamped – permanent ID for thread type/part number, no stick-on labels.
- Closed-end recessed liftable designs.
- Suitable for all types of handling or loading, including truck, rail and offshore transport.
- Meets or exceeds all major oil company and premium thread manufacturers specifications.
- Designed for extreme weather conditions – tested from -50° to 150°F (-46° to 66°C).
- Manufactured under ISO 9001 certified quality system.

Want tough? Need absolute protection and strength? MSI Products uses a proprietary, composite resin to mold our ULTRA premium thread protectors. Formulated to control thermal expansion and contraction in extreme weather conditions, this compound also provides enhanced impact strength and UV resistance. MSI ULTRA premium protectors feature CNC machined threads, therefore you get an exacting fit that reduces the chance of corrosion and eliminates backing off during storage or handling.

ULTRA offers world-class protection.
